

Lepas

An Elegant Whisper That
Commands The Road

Drive Your Elegance

The Leopard Arrives

The leopard doesn't announce its presence. It marks its territory and the world adjusts.

The Lepas L4 brings that same instinct to South African roads. Built on the DNA of the leopard, every detail embodies poise, agility and presence. Elegance that moves the way you do. Purposefully. Precisely. Without apology.

Your Drive. Your Aesthetic.
Your Statement.

Command With Clarity

The L4 sees the road with precision. Every detail engineered for focus, composure and confidence on every journey.

See Everything, Miss Nothing

Advanced safety and camera technology gives you complete confidence, even in Sandton's tightest parking spots.

- 6-airbag safety suite
- Peace of mind on the road with airbag protection on all sides
- 540° panoramic 1-million-pixel HD camera system for clear, all-round visibility
- See everything around you that your eyes may have missed
- Voice-activated camera functions
- Hands-free control with the power of your voice

Intelligent Assistance, Quiet Confidence

Advanced driving assistance systems work quietly in the background, keeping you and your passengers protected, so you can focus on enjoying the drive.

- Adaptive Cruise Control: More comfort, convenience and efficiency on the road
- Lane Departure Prevention: Alerts you via sound and gently guides you back into your lane when you drift off
- Autonomous Emergency Braking: Detects collisions before they happen and automatically applies brakes in time
- Blind Spot Detection: Uses sensors to detect objects that are in hard-to-see areas as you drive
- Traffic Jam Assist: Drive with less stress and fatigue in heavy, stop-and-go traffic jams

The Confidence Continues

LEPAS backs every L4 with cover that moves with you, so the only thing you think about is the drive.
